SOUTH CAROLINA MONEY. We will take South Carolina money at par in payment for subscriptions to the Parmor.

As Apology .-- Owing to the extremly cold weather; the utter failure of our sanctum stove to show itself equal to the occasion; the disposition of our ink to freeze us hard as a brick; the pressure in the money market; the searcity of provisions; sickness in a neighboring family, and a heavy rus of job-work, we have been forced to berrow most of the "local" matter in this morning's paper from our exchanges,

FIRE.-The dwelling and kitchen of Rev. W. Shaw, on the Noleusville Turap ke, about three miles from the city, were destroyed by fire on Friday night last. Loss about \$2,-000. Mr. Shaw's family made a narrow escape with their lives.

THANK-GIVING DAY. - The Rock City Guards intend celebrating Thank-giving Day by attending Divine service by their Chaplain, in the Hall of Representatives at the State House at 11 o'clock, A. M. The battalion of Cadets at the W. M. Institute, and the German Yagers have been invited to attend on this interesting occasion, so as to make it a complete military festival. The public are invited of course. FUR FASHIONS .- The once despised "mink," taking rank only one step higher than the muskrat, has got into such high favor from its esuse resemblance to the Hudson Bay sable, that importations have been displaced to a large extent, and now the American sable takes the precedence in comparison with almost any of the rival furs. Stonemarten, fitch, squirrel, &c., are less inquired for. Success in winning popular favor results in this case much as it often does in the higher walks of animal life, and whole communities of the mink creation have been brought to sorrow from the effects of extensive adulation. In other words, the demand for mink has tended to surfeit the market, so that prices are about twenty percent. lower than last year's. In style there is no essential change, except that the half-cape leads, owing to the use of the modernized Arabian hood in cloak making, which does not permit of covering. The stock of fure on hand is about as usual in quantity; but it will be speedily reduced after the winter fairly se's in .- N. Y. Journal of Commerce.

THE INCOME TO THE FRENCH GOVERN-MENT from Tobacco, 1 st year, was about \$36 000,000. In 1835 it was but \$3,000 000 For the past 46 years, it has been over \$877 .-000,000. Nearly one-half of the tobacco used in France is from the United States and Cuba; the rest is grown in the south of France and Algeria, and is manufactured in three great establishments belonging to government. The largest is in Paris and employs rected to "Alexandria, Virginia, Southern 4.000 workmen.

AMERICANS IN GARIBALDI'S ARMY,-There ere said to be five Americans now in the service of Garibaldi-Gen. Wheat, Charles Carroll Hicks, of Columbus, Obio; Frank Maney, of this city; Heary N. THE PENOPTICON OF INDIA .- D. C. LA-Rug's panopticon, or mechanical exhibition has proved a very attractive entertainment during the past week, at Odd-Fellows' Hall. It is a rare piece of workman-ship, and displays great artistic skill as well as mechanial ingenuity. The exhibition opens with a view of Calcutta, the famous commercial m-tropelis of British India. In this scene we have the interesting spectacle of the disembarkation of the English reinforcement. in which are seen steam vessels, men-of-war, and flat bottomed boats, busily engaged in conveying to shore the troops, munitions of war &c. It is related of this unfortunate dog that, he was stock together with two legs up and down, and remained so for the rest of his life; albeit he was a more durable dog after than be fore this slight accident, because while he was running on two legs the other two were resting, and he had only to flop over on the rested legs and go ahead afresh.
